PROGRAM REPORT

Name of the program	:Virtual Internship on "Robotic Process Automation"
Date/Duration	:01-12-2022 to 28-02-2023 (10 Weeks)
Resource Person	:Mr. Pavan
Name of the Coordinator	:Mr. B. Ravi, Assistant Professor, ECE.
Number of Participants	:23

Program Objectives
:Students learn to capture and manage outputs from automated processeswithin the Blue Prism platformthat perform a specific task. They gain comprehensive knowledge about exception management by equipping them with the skills to design resilient and error-tolerant automatedprocesses along more advanced concepts such as release management, business objects, and XML integration.

Topics Covered
:1.Overview of Blue Prism foundation training
2. Knowledge about tools in Blue Prism
3.Business objects and action stages
4. Exception management
5. Exception Blocks
6. Deferment and exception handling
7. Consolidation Exercise

Program Outcomes
:By completion of the internshipstudents will have a complete knowledge about Blue Prism tools which is popular for robotic process automation (RPA) tool that enables organizations toautomate repetitive, rule-based tasks. By completing a Blue Prism integrated automation coursecan equip you with a range of technical skills.

The resource persons are from world-renowned Institutes and companies such as IIT Delhi, Germany center for Advanced Engineering and Management Studies, FESTO and IGUS Germany. During this program student gets a chance to learn high-end Germany Technologies. The program will Commence from August 2022 to October 2022. The details of the program are displayed in the notice board. Interested candidates can meet Ms. V. Sri Lakshmi, Assistant professor, Department of Electronics and Communication Engineering and Mr. R. Kiran Kumar, Assistant professor, Department of Mechanical Engineering to enroll their names on or before 26-08-2022.

Dear sir,

Greetings from IES!

ARC empowers the students and college faculties with Futuristic Technology Skills in
Mechatronics, Robotics, and emerging technologies in partnership and joint certification with
APSSDC. During this ARC activity, the student gets a chance to learn high-end German
technological topics; also they will have a chance to implement the project task further at ARC
center establishments which are at 31 locations in Andhra Pradesh.
The execution plan for the program is detailed in the presentation attached to this mail.

Registration link - https://arclabsgermany.com/

Looking forward to the beginning of the exciting journey of "ARC – Certification on Emerging
Technologies" Please find the attachments.
We appreciate both Spoc and faculties for your cooperation in pooling with Your Esteemed
College students to provide the technical skills through ARC.
Do not hesitate to write to us.

Regards,

ARC Team

Dear Professor,

Greetings for the day!!!

We extend our course to be unique and have much more hands-on experience with industrial robotics to make students learn the industry connects at their doorstep. every student of the ARC has an opportunity to experience the practical implementation of the industrial robot. hence we request faculty members to make use of this workshop very effectively.

• College is requested to provide trainers with food and accommodation for 1 day.

The training is scheduled for SRK Institute of Technology on the 5th Nov 2022, Saturday. 09:00 AM to 06:00 PM

The prerequisite for robotics training and the day schedule is enclosed.

PRE-REQUISITES FOR TRAINING ROBOT CELL

S.NO	DESCRIPTION	SPECIFICATION
1	Floor should be in Level and ready for pedestal mounting	
2	Power Requirement	INPUT:3phase415V
3	MCB	4 Pole 32A (1 Nos.) (3 Phase)
4	Extension power cord with single phase power supply should be provided for cell installation work.	
5	Earth pit for robot and common earth for transformer	Standard-2 Nos.

Note:
Proper 3 Phase 415v, neutral and ground connection is required.
Line to Line Voltage 400 to 420V
Line to Neutral Voltage 220 to 240V
Neutral to Earth Voltage 0 to 3V

Dear Professor,

Greetings for the day!

Herewith we are sending the Assessment time slot and guidelines for your college to attend the test, which are as follows. Assessment login instructions are attached to the email please find the attached document.

1. The Advance Certification on Emerging Technologies Assessment will be conducted on the ARC LMS portal, for the login student need to use their username and passwords.

LMS Portal link: https://portal.arclabsgermany.com/

Date & Time: scheduled on 26th October 2022, Wednesday @ 11:00 - 11: 45 AM

The assessment format of the Advance Certification on Emerging Technologies Certification is as below:

Exam Platform: ARC LMS Portal
No of Questions: 40 (objective)
Duration of test: 45 minutes
Syllabus: All questions are based on the content presented during the Advance Certification in Emerging Technology Program.

Please communicate with your students about the assessment from the concerned department to alert them to appear on the test without fail.

For any queries please contact us.

Regards,
ARC Team

Outcome of the Event:

Students of multi-disciplinary engineering courses have undergone this certification training program. During this training students got exposed to various industries oriented robotic applications. Students had their hands on training over IGUS Robotic Controller Software Package. Students were trained over PLC software package and ROS programming module. Students were exposed to low-cost automation tools and importance of automation. Even though the program concluded on 21-10-2022, students utilized the labs for hand on practice over 4-Axis IGUS Robots.

Assignments performed by students

1. Automation of Pick and Place of a Workpiece simulation using IRC software
2. Automation of Palletizing of work pieces using IRC software
3. Automation of Bartender using If – Else, Loop Condition, Subprogram Commands in IRC Software
4. Automation of Pick and Arranging of boxes in a container in a 3×3 matrix format by using Variable Operations commands (Set, math. Subtract)
5. Collaboration of Two robots (Small and Big robots)
6. Assembling of two different work pieces for a continuous process

All the III - B. Tech I - Sem students are here by informed that as a part of IQAC initiatives to encourage multidisciplinary approach, SRKIT in collaboration with APSSDC-ECM-Convergence Training Centre is conducting a **International internship Program** on "**Applied Robot Control –Advanced Certification on Emerging Technologies**". The resource persons are from world-renowned Institutes and companies such as IIT Delhi, Germany center for Advanced Engineering and Management Studies, FESTO and IGUS Germany. During this program student gets a chance to learn high-end Germany Technologies. The program will Commence from August 2022 to October 2022. The details of the program are displayed in the notice board. Interested candidates can meet Ms. V. Sri Lakshmi, Assistant professor, Department of Electronics and Communication Engineering to enroll their names on or before 26-08-2022.

Objective of the Program: The objective of the course is to bring latest technologies in automation and manufacturing sectors to the labs of colleges. Firsthand experience on Industrial robots for the students. Learning with industry-driven production requirements, Real-time training to supplement students with skills on advanced technologies to make them standout in global arena.

Outcome of the Event:

During this training students got exposed to various industry oriented robotic applications. Students had their hands on training over IGUS Robotic Controller Software Package. Students were trained over PLC software package and ROS programming module. Students were exposed to low-cost automation tools and importance of automation. Even though the program concluded on 21-10-2022, students utilized the labs for hand on practice over 4-Axis IGUS Robots.

Assignments performed by students

1. **Automation of Pick and Place of a Workpiece simulation using IRC software**
2. **Automation of Palletizing of work pieces using IRC software**
3. **Automation of Bartender using If – Else, Loop Condition, Subprogram Commands in IRC Software**
4. **Automation of Pick and Arranging of boxes in a container in a 3×3 matrix format by using Variable Operations commands (Set, math. Subtract)**
5. **Collaboration of Two robots (Small and Big robots)**
6. **Assembling of two different work pieces for a continuous process**
7. **Programmable Logic Control (PLC) for Motor Mechanism**
8. **Programmable Logic Control (PLC) for Blub Mechanism**
