COMPANY PROFILE

In 2018 Chandra Sekhar thought of to excel in teaching. He took his start towards it and began searching in many computer institutions but nobody gave an opportunity. Then after plenty of hardships he got the chance at Vaddadi Computers, To teach C language to students and that's how his teaching career has begun.

He observed that a number of the scholars are willing to find out but they step back because of the upper prices of the course. Then he decided to begin an establishment which may help many students who want to be told, but couldn't afford it.

During his diploma 2nd year, he started teaching to his juniors in college. In his 3rd year, he taught ethical hacking in online mode. That's how CS CODENZ started. So CS CODENZ journey started with more courses and an excellent team and with plenty of aspirants . Seasons are passed and now we are in our 5th season, continuously teaching all the scholars who have the zeal for coding. What we wish is everyone who wants to learn, should never quit due to their lack of money.

We were, are and can always contribute to our nation by teaching at an affordable cost.

COMPANY PROFILE

In 2018 Chandra Sekhar thought of to excel in teaching. He took his start towards it and began searching in many computer institutions but nobody gave an opportunity. Then after plenty of hardships he got the chance at Vaddadi Computers, To teach C language to students and that's how his teaching career has begun.

He observed that a number of the scholars are willing to find out but they step back because of the upper prices of the course. Then he decided to begin an establishment which may help many students who want to be told, but couldn't afford it.

During his diploma 2nd year, he started teaching to his juniors in college. In his 3rd year, he taught ethical hacking in online mode. That's how CS CODENZ started. So CS CODENZ journey started with more courses and an excellent team and with plenty of aspirants . Seasons are passed and now we are in our 5th season, continuously teaching all the scholars who have the zeal for coding. What we wish is everyone who wants to learn, should never quit due to their lack of money.

We were, are and can always contribute to our nation by teaching at an affordable cost.
