Program Report

Name of the seminar: A seminar on "Practical aspects of Data science" in Association with European Space Agency.

Date: 30-08-2022.

Time: 11:00 am to 1:00 pm.

Resource Person: Alikina Pavan Kumar.

Number of Participants: 67

Program Objective: The objective of this program is to educate the students how to use data science concepts in practical problems in the real world. The student got awareness on the places where there is a huge demand for Data scientists.

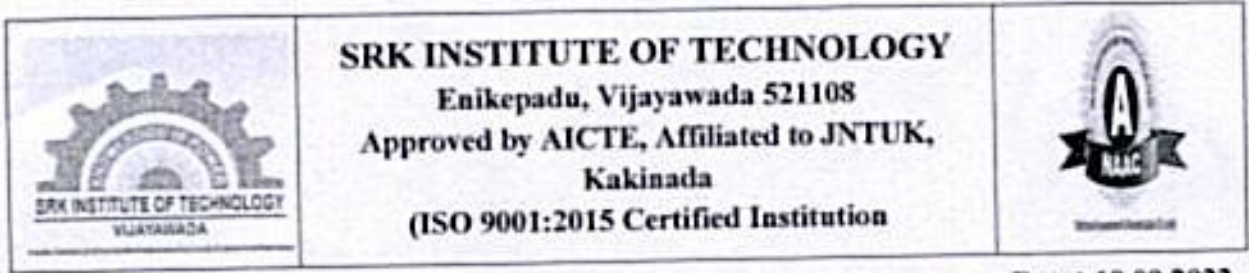

Topics Covered: The Topics covered in this program are

- Data scientists Opportunities.
- Role of Data scientists.
- Practical aspects of Data science

Program Outcome: Students can choose appropriate data management strategies, can carry out relevant analyses, can interpret and apply the results to inform understanding and solve specific problems in context, and can communicate the work to a technical audience. And also helps in chasing real time Data Analytics Projects.

REPORT

Name of the Event : A Seminar on "Ground Granulated Blast Furnace Slag-
GGBS for Strong, Durable, Sustainable and Green
Concrete Construction"
Date of the Event : 21/09/2022
Venue : Ground floor Seminar Hall (A-017).

Description:

A Seminar is conducted for Civil Engineering students in association with JSW Cements. Resource person explained students about the manufacturing of GGBS from JSW steel. He showed the manufacturing process through PPT format. Resource person explained students that GGBS is an eco friendly product which promotes the Green Concrete construction and it is a very strong durable and sustainable material. Students enthusiastically asked doubts which were clearly explained by the Resource person. At last finally year students showed interest to use GGBS in their projects to check strength and durability studies.

PROGRAM REPORT

Name of the Program : One Week Workshop on Advanced Surveying by using Total Station

Date / Duration : 6 DAYS (22-08-2022 to 27-08-2022)

Resource Person : Prem Babu

Name of Coordinator : G.Sahithi

Number of Participants: 51

Program Objectives : Advanced Surveying by using Total Station

Topics Covered : 1) Total Station: Introduction to total station and practicing setting up, leveling up and elimination of parallax error.
2) Total Station: Determination of area using total station.
3) Total Station: Traversing
4) Total Station: Contouring
5) Total Station: Determination of Remote height.
6) Total Station: distance between two inaccessible points.

Program Outcome : The students are able to determine area of college using total station.

UNDERSTANDING OUR CAMP STRUCTURES

Field Coordinator (FC)
A crucial link between VOICE
Full-time staff and Counsellors
who teach the campers

Camp Counsellor
Critical in ensuring
implementation of program to
the campers

OUR PROGRAMMES

HER VOICE PROGRAM

The Her VOICE Program is VOICE's flagship program. The thirty-day intervention consists of three 10-day camps that are conducted for girls of classes 8 and 9. These camps - Parichay, Disha, and Sakhi - are fun, exciting, safe, and inclusive spaces where girls learn about their bodies, safety, rights, and future planning.

BOYS 4 CHANGE

After hearing many stories of bravery and resilience, VOICE realised that it was not enough to work with girls in isolation. Following this revelation, VOICE conceptualised a programme that works intensively with adolescent boys. The Boys 4 Change programme is split into two phases - Fireflies and Supernova. VOICE envisions that, with this programme, boys will work to be gender ambassadors who help build a gender-equal society.

INTERNSHIP STRUCTURE

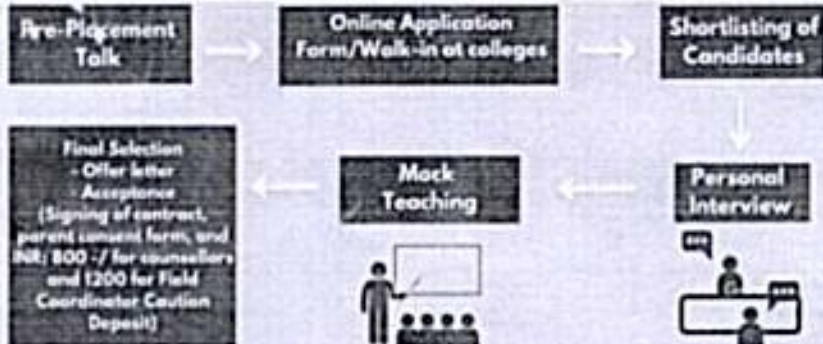

- VOICE Camps will be conducted in government schools across **Districts of Andhra Pradesh**.
- The duration of a camp will be **15 days**, including training and camp.
- **Interns will be trained** on the content that has to be taught, classroom management and implementation of the program
- Interns will be using **public transport** to travel to the location where they will be staying for 10 days, and the stipend paid is inclusive of the travel
- **Dress code** (for camp and training): INDIAN WEAR WITH DUPATTA for Female interns and INDIAN FORMALS for Male interns
- **Stipend** along with **government-sanctioned certificate** to be given only on successful completion of the entire internship.

SELECTION PROCESS

YOUR ROLES AND RESPONSIBILITIES

COUNSELLOR

Effectively teach the VOICE Curriculum and supervise, communicate with a group of around 30 students on a daily basis

Maintain camp schedule and decorum.

You should serve as a positive role model and source of support for all campers

FIELD COORDINATOR

Liaison between stakeholders to accomplish the overall mission of the program by attending to the safety, well-being and enjoyment of the participants

On-site manager who supervises counsellors on a daily basis while managing the camp

Documentation of camp information

A JOB YOU'LL NEVER NEED REST FOR

WHAT YOU CAN EXPECT

- Networking
- Learning and unlearning about social issues
- Experience personal growth by stepping out of your comfort zone
- Professionalism
- Communication skills - better articulation, assertiveness, negotiation skills
- Stakeholder management
- Team building - Leadership skills
- Chance to be a change-maker in marginalised communities
- Stipend and certificate

WHAT YOU CANNOT EXPECT

- A grand vacation
 - Private transport
 - Sight-seeing in the location
 - Special treatment
- Leaves and permissions
- No visitors during camp
- Posting pictures without consent of campers

Programme Report

Name of the Program : "Database security issues, challenges, and Control Measures"
Duration : 2 hour
Teaching Instruction : 16-10-2023
Resource Person : R. SivaDirector at VXL IT Solutions..
Name of the Coordinator : P.SaiCharitha, Assistant Professor, SRKIT.

Topics Covered

Basics I:Database Security Issues
Basics II: Database Security Control Measures
Basics III:Challenges of Database Security

Program Objective:

The primary objective of the guest lecture on "Database Security Issues, Challenges, and Control Measures" was to provide our B.Tech students with in-depth insights into the critical aspects of database security. The lecture aimed to:

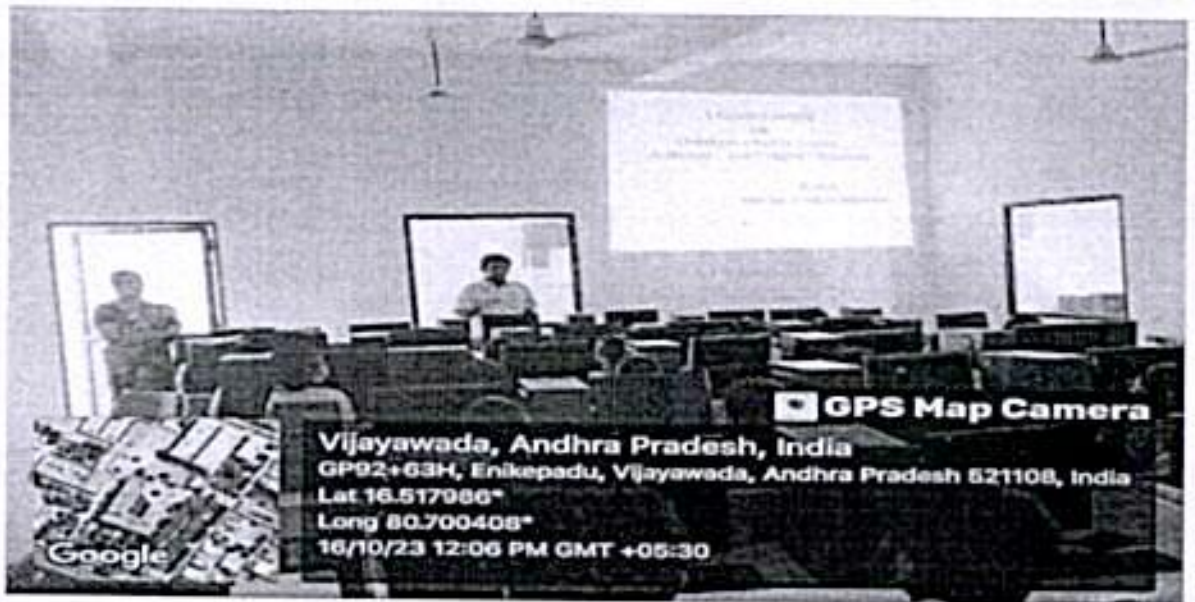

- Raise Awareness
- Identify Challenges
- Explore Threats
- Promote Best Practices
- Enhance Knowledge

Program Outcome:

By the end of the guest lecture, students should be able to:

- Understand Database Security.
- Identify Security Challenges.
- Recognize Security Threats.
- Apply Knowledge

Sub: Request you to lecture on "Recent Conflict Management Skills on Various Fields".

Respected Sir,

Good afternoon sir, this is Dr.G D K Kishore from IT Department in SRKIT. Inviting you to deliver a lecture on "Guest Lecture on Recent Conflict Management Skills on Various Fields" .please reply give your convenient dates, as early as possible.

Thanking you sir

Technologies solution, Hyderabad.
Name of the Coordinator : Amritha Mishra, Assistant Professor, SRKIT.

Topics Covered

Basics I: Introduction to python programming
Basics II: Machine learning and its Application.

Program Objective:

- Machine Learning is broad and fast growing sub-field of Artificial Intelligence.
- This course introduces students to the basic concepts and techniques of Machine Learning. The objective of this course is to develop the skills required for Machine Learning Technologies with use of Python to analyze data, create visualizations, and problem solving using powerful machine learning algorithms.

Program Outcome:

After completion of this course, student will be able to:

- Understand about the roles & responsibilities that a Machine Learning Engineer plays
- Python may be used to automate data analysis

Name of the Program : "Flask-python micro web Framework"
Duration : 1 day
Teaching Instruction : 14-12-2022
Resource Person : Manindher Singh, Data Analyst at Sutherland Global Services.
Name of the Coordinator : Amritha Mishra, Assistant Professor, SRKIT.

Topics Covered:

- Introduction to Flask
- Setting up Flask
- Routing and Views
- Flask Extensions
- Request and Response Handling

Program Objective:

The objectives of this study are as follows

- Students will have the knowledge and skills necessary to develop robust web applications using Flask and adhere to best practices for security, testing, deployment, and optimization.

Program Outcome:

By the end of the seminar, participants will be able to:

- Gain a comprehensive understanding of Flask, its features, and its role as a micro web framework.
- Develop practical skills in building web applications using Flask and its associated tools and extensions.
- Understand best practices for structuring and organizing Flask applications.
- Acquire knowledge of Flask's integration with databases and other popular libraries for enhanced functionality.
- Learn about security considerations and implementation techniques in Flask applications.

Programme Report

Name of the Program	: "Block chain And crypto Currency Technology"
Duration	: 16-12-2022 to 16-12-2022
Teaching Instruction	: 16-12-2022 to 16-12-2022
Resource Person	: Dr.D.DurgaPrasad,Professor,Ph.D,PCMRCollege of Engineering and Technology.
Name of the Coordinator	: G.srilakshmiAssistant Professor, SRKIT.

Topics Covered

Basics I:The characteristics that can revolutionize Blockchain technology are thoroughly described.

Basics II:The current state of Blockchain technology is thoroughly investigated..

Program Objective:

- The course is aimed at acquiring the basic level of knowledge about the blockchain technology and its business applications. Students will study how blockchain facilitates enterprises in different areas: funding, management, value creation and monetization, supply chains.

Program Outcome:

- Theoretical knowledge of the main concepts and properties of blockchain technologies
- Acquaintance with white papers of different blockchain-based projects
- Experience in analysis of practical cases of blockchain application
- Ability to identify and assess perspectives of enterprise blockchain applications

CIRCULAR

In line with the circular dated Dec 12, 2022 given by the principal, All the III/IV year B. Tech students of IT are hereby informed that the Department of IT will be organising a Guest Lecture on "Conflict Management Skills on Various Fields" at 4th floor IT Lab of the SRK Institute of Technology on 21th Dec 2022. And the resource person is, D.N. Kumar, CEO of IN IT Solutions.

Note: All 3rd year students are encouraged to attend this Guest Lecture. It is valuable Opportunity to learn about Conflict Management Skills on Various Fields.

Programme Report

Name of the Program : "Conflict Management Skills on Various Fields"
Duration : 21-12-2022 to 21-12-2022
Teaching Instruction : 21-12-2022 to 21-12-2022
Resource Person : M.D.N.kumar, CEO of IN IT Solutions.
Name of the Coordinator : M.Suresh Babu, Assistant Professor, SRKIT.

Topics Covered

Basics I: Effective communication

Basics II: problem-solving skills

Basics III: positive attitude

Program Objective:

- Increase your ability to take others' perspectives.
- Understand the role of goals in conflict.
- Develop a greater awareness of the role of power in conflicts.
- Expand your understanding and use of a range of conflict strategies.

Program Outcome:

After completion of this course, student will be able to:

- Restate the ideas of others.
- Apply what they learn to further peace and justice in their communities.

PROGRAM REPORT

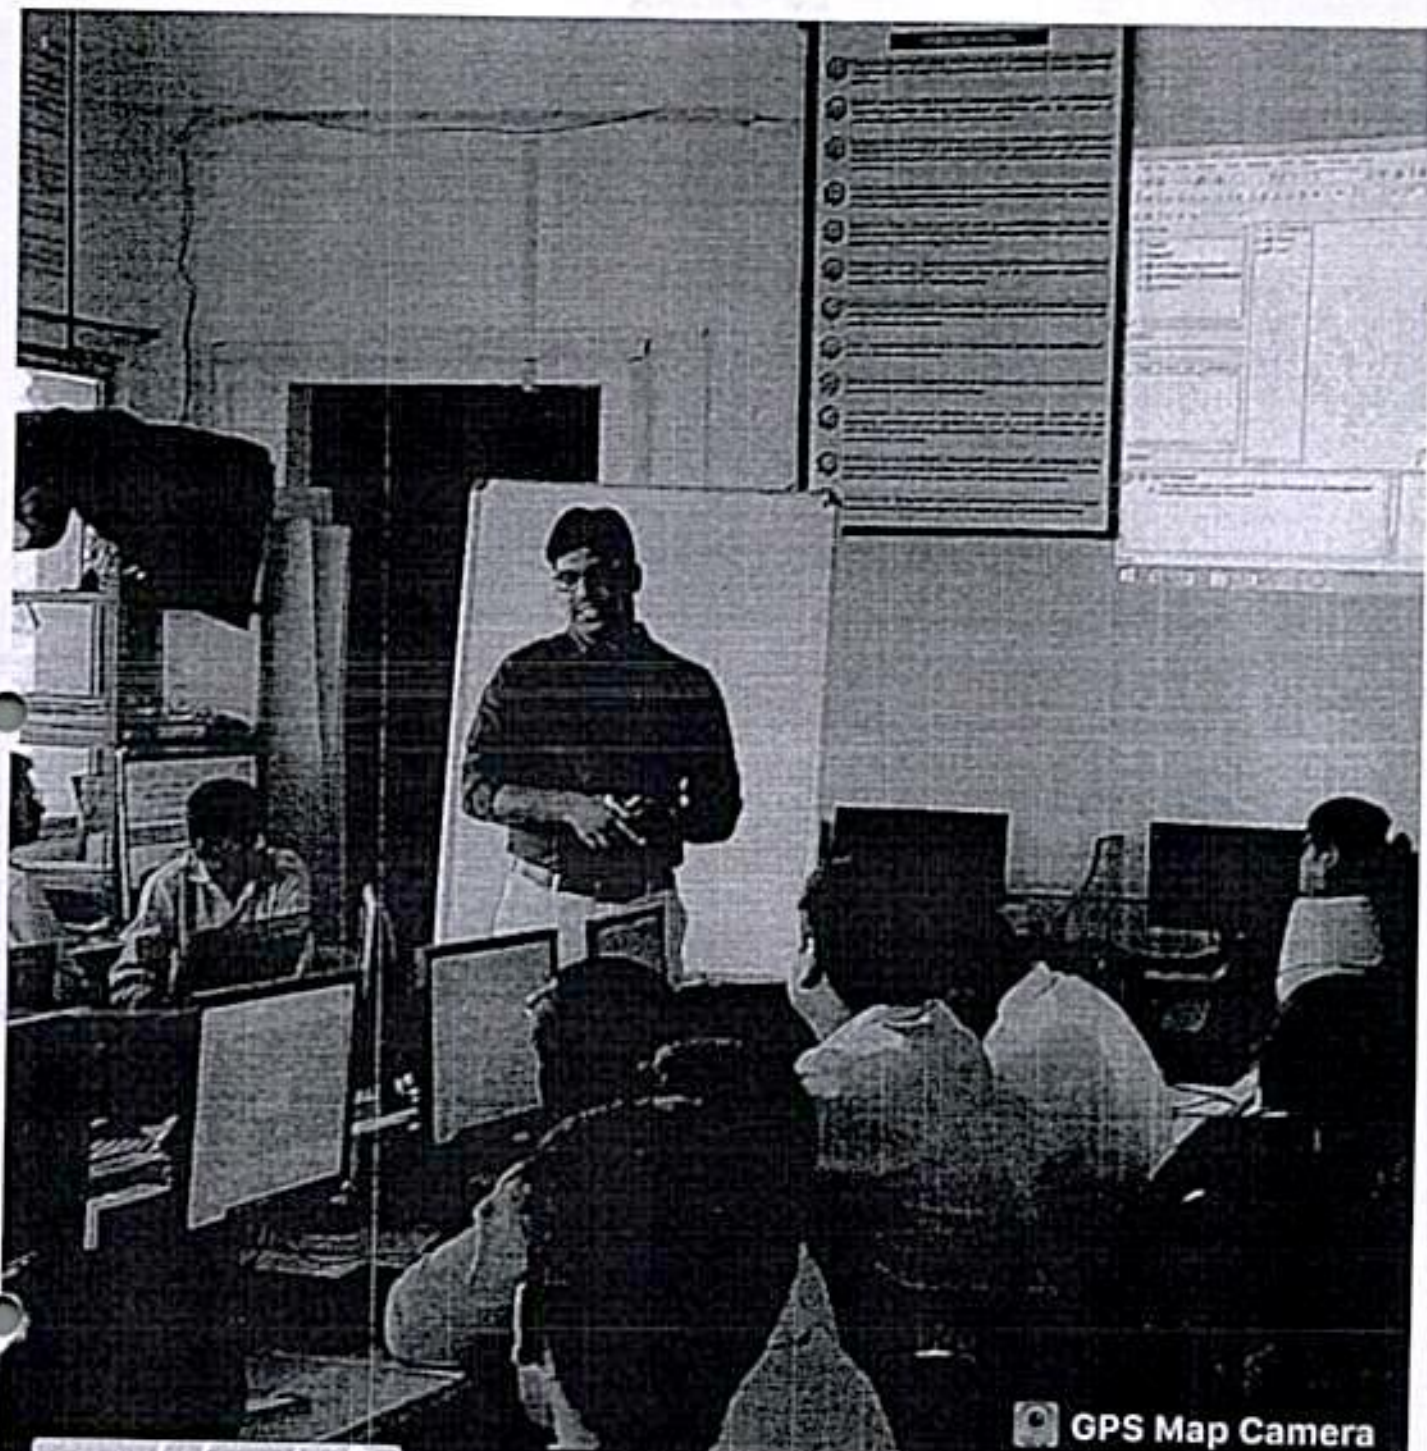

- Name of the Program** : Two day ICT program on "Antenna Design Using HFSS"
- Dates** : 6th, 7th February 2023
- Resource Person** : Dr.D.Ravi Tej, Assistant Professor, Department of Electronics and Communication Engineering, Mobile No: 9441747164
- Number of Participants** : 63
- Program Objective** : The objective of this program is to educate the students about Antenna design perspectives along with validation and analysis with any specific design requirements.
- Topics Covered** : The topics covered in this program are
- Antenna design parameter
 - Antenna Metrics
 - Design environment
 - HFSS design process
 - Antenna measurements
 - Various antenna patterns and designs
 - Rectangular Patch
 - Validation and analysis of design
- Program Outcome** : Completing this course should provide the students with a good Understanding of antenna metrics for specific applications and measurements suitable thereof and hence designing a perfect antenna for getting good performance metrics..
